

My name is Asheeki Elmore and I am delighted to serve as the new chair for the Membership Committee. I received my Doctor of Psychology (PsyD) in School Psychology from Argosy University in 2015. As a new comer to the field, I feel fortunate to have been afforded such a wonderful opportunity. I completed one year of practicum in the Scottsdale School District. I also completed a second practicum and internship year in the JO Combs School District. I currently work as school psychologist in the Tempe Elementary School District where I work with children in grades K-8.

In my spare time, I am a track and field coach through USATF. Additionally, I serve on a mentorship board that focuses on academics, personal responsibility, and developing youth and young adults (ages 6 – 21). My interest include research, behavior management, mentoring, working with minorities, and preparation and training of school psychologists. I am excited to chair the Membership Committee and look forward to meeting and interacting with everyone at the upcoming conference and workshops.
